

ATG Training is committed to integrating environmental best practice into all its business activities. ATG Training accepts its environmental responsibilities and recognises its obligation to reduce the impact of business activities on the environment. ATG Training takes its responsibilities to the wider community very seriously and is committed to:

Our environment - to sustaining the environment for future generations

- We aim to promote good environmental practice by our people and aim to take an active part in reducing the company's impact upon the environment.
- We are committed to continual improvement of our environmental performance. We aim to ensure that our activities comply with environmental standards and legislation.
- We aim to minimise the quantities of packaging and stationery that we use while ensuring the efficient operation of our business.
- We aim to manage our resources to save energy, reduce waste, promote re-use and recycling (such as paper, printer cartridges, and IT equipment), avoid damage to the environment, and prevent pollution.
- We aim to implement best practice in our processes and procedures to support our employees in carrying out their jobs in an environmentally responsible manner.
- We will encourage the use of environmentally friendly means of transport by staff & students.

Our community – to being a caring neighbour

- We aspire to be active members of the community in which we work.
- We aim to behave as a good neighbour wherever we operate a business.
- To support our employees who are raising money for charitable causes through their own efforts.
- We provide particular support for the charity Wheelpower (www.wheelpower.org.uk).

Our marketplace - to operating ethically and with integrity

- We will act with integrity at all times and will treat all trading transactions as an opportunity to build sustainable trading relationships for the company and our trading partners.
- We will be truthful and fair in all aspects of our business
- We will abide by the law
- We value our good reputation with sponsors, customers and business partners.
- We will assess the environmental impact on current and likely future operations and fully integrate environmental considerations and objectives into our business decisions.
