Engineering Apprentices

Chiltern Railways have been recruiting apprentices for the past six years and are endeavouring to take on a further two this year.

ATG have always aided the selection and recruitment process to provide the most suitable candidates for our apprenticeship programme. The programme is managed by ATG through to completion, incorporating day release at ATG to Level 3 standard, regular visits to the apprentices in the workplace to monitor progress, review performance and ensure the apprenticeship is running to schedule.

Chiltern Railways have found that apprentices have been of great benefit to the company and to the recruitment process, by individuals making a smooth transition into the role of skilled service staff on completion of their apprenticeship.

Your sincerely,

Kevin Lindsay
Fleet Trainer
