

### Workshop Summary

This Workshop aims to raise the awareness of Health & Safety amongst Directors and Senior Executives. It is designed to ensure that they are in compliance with current and future Health & Safety legislation. A one day Workshop, it covers general aspects of Health & Safety management principles to allow participants to formulate active control strategies within their organisation.

### Who Should Attend

Directors and Senior Executives with overall responsibility for Health & Safety within the organisations they run.

### Benefits to you and Your Organisation

By the end of the Workshop, participants will be able to:

- Demonstrate commitment to Health & Safety from the top
- Understand fully the legal implications of Health & Safety compliance
- Implement systems and action planning to ensure compliance and continued improvement
- Organise a demonstrable level of competence within the organisation

### Workshop Contents

- English legal framework and EC Directives
- Understanding Employers' Responsibilities
- Recognising how the law has shifted to a non-prescriptive approach
- Understanding financial and penal implications of non-compliance including corporate manslaughter
- Root causes of accidents and prevention
- Implementation of control strategies
