

Workshop Summary

This one-day Workshop has been developed to address the training needs of the non-Health and Safety expert. It aims to train workers, at all levels, to ensure that their actions contribute to Health and Safety in the workplace and that individual responsibilities are clearly understood.

The ATG Training Consultant team achieves a high success rate in IOSH Examinations with a continuing pass rate of 100%. Pass rates are above the national average

Who Should Attend

- Working Safely is aimed at all people whose work exposes them to risk.
- The Workshop is particularly ideal as part of a company induction programme

Benefits to You and Your Organisation

By the end of the Workshop, participants will be aware of their responsibility for safety towards themselves, their colleagues and others affected by work activities

- Identify the hazards and evaluate the risks in their workplace
- Use appropriate workplace precautions for specific risks or seek advice on workplace precautions
- Assist managers in preparing written Risk Assessments
- Follow their organisation's Health and Safety Policy
- Co-operate and communicate on safety matters
- Report relevant accidents and incidents
- Monitor their own activities and assist managers in active monitoring
