

Workshop Summary

This aim of this one day workshop is to gain familiarity with the main alterations and additions that have occurred to BS 7671 with the introduction of the 17th edition of the IEE Wiring Regulations. Throughout the Workshop delegates will be prepared to sit the City and Guild 2382-20 multiple choice assessment leading to the award, for successful candidates, of the Level 3 Certificate in the Requirements for Electrical Installations BS 7671 (Jan 2008.)

Who Should Attend

The Workshop is aimed at practising electricians, electrical contractors and those who have already achieved the qualification C&G 2381 (16th edition IEE wiring Regulations BS 7671(2001)) and wish to upgrade to C&G 2382.

As only the changes to BS 7671 will be discussed during the workshop it is essential that delegates have a good working knowledge of the IEE wiring regulations. As can demonstrate by having the C&G 2381 qualification.
