

Workshop Summary

This Workshop is designed to be relevant to most workplace, as there are many collective fire hazards and risks, e.g. electrical systems, appliances and people. Candidates will be instructed in the correct selection and use of fire extinguishers and evacuation procedures.

Who Should Attend

This Workshop is for company nominated Fire Marshalls who are responsible for fire safety and evacuation.

Benefits to You and Your Organisation

By the end of the Workshop, participants will be able to:

- Understand the importance of fire safety
- Understand the combustion process and spread of fire
- Identify suitable fire prevention and protection measures and advise on minimising the risk of fire in the workplace
- Evaluate effectiveness of fire drills
- Appreciate the essentials of current fire safety legislation
- Supervise emergency evacuations

Optional: Hands on Practical use of Fire Extinguishers. (Provided on request).
