

SAFE USE OF POWER PRESS TO MEET PUWER (HS02)

This One Day Workshop deals with the legal requirements contained in the Safe Use of Power Presses, PUWER 1998 Approved Code of Practice and Guidance

Workshop Summary

This One Day Workshop gives an outline of the current legal requirements, particularly with regard to the important provisions relating to the safety of equipment, together with the principles of accident prevention. Power Presses are potentially dangerous machines which need to be guarded and used strictly within the prescribed rules.

Who Should Attend

This Workshop is designed for Operators, Setters, Maintenance Engineers, Power Press Operators and those responsible for the presses.

Benefits to you and Your Organisation

By the end of the Workshop, participants will be able to:

- Function with minimum risk to Health and Safety
- Enable full compliance with statutory duties, common law and company policies

Workshop Contents

- Power Press Regulations and Code of Practice
- Safety Devices
- Power Press Guarding
- Major Features and Design of Power Presses
- Causes and Prevention of Power Press Accidents
